 Fundamental Choice Portfolio Manager

“It’s What You Learn After You Know It All That Counts.”

“A post-elementary education in advanced investing strategies.”

A quick review of lessons learned in Kindergarten:

Lesson #1: _____ is good and _____ is bad.

Econ 101: _____ and _____ still rule the Markets.

Lesson #2: _____ is good and _____ is bad.

The Power of Relative Strength: “Am I being _____ for the
 _____ I am taking?”

The potential to identify possible _____.

The potential to avoid possible _____.

Lesson #3: Don’t _____!

Learn to use _____ every time.

The 3 questions every investor MUST be able to answer:

When will I _____?

When will I _____?

When will I _____?

Together we’ll go far

When to consider BUYING:

- _____ from a sound base.
- _____ - buying the pullback to the 50-day line.
- _____ - explosive special situations!

When to consider HOLDING:

- Respect the _____ - _____.
- _____ - _____ rule – let the trend be your friend.
- _____ - _____ rule – holding on to a firecracker!

When to consider SELLING:

OFFENSIVE Selling:

- Sell on the way _____: Lock in most profits when up _____ - _____%.

DEFENSIVE Selling:

- Rule #1: Cut all initial losses at _____ - _____%.
- Rule #2: _____ rule #1.
 - Learn to use _____ every time.
- Sell on _____ - _____ 50-day line _____.
- Sell on _____ of the entire run.

Successful investors are _____!
